

# Test Automation Metrics

February 2025

# How do we report?

# What do we report?

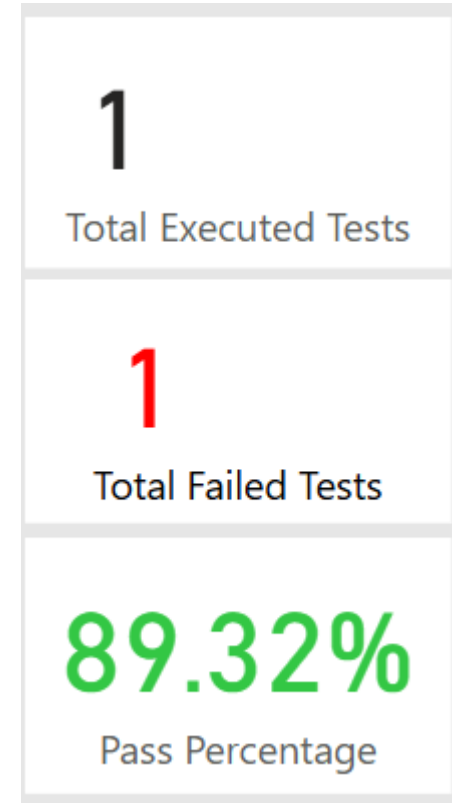

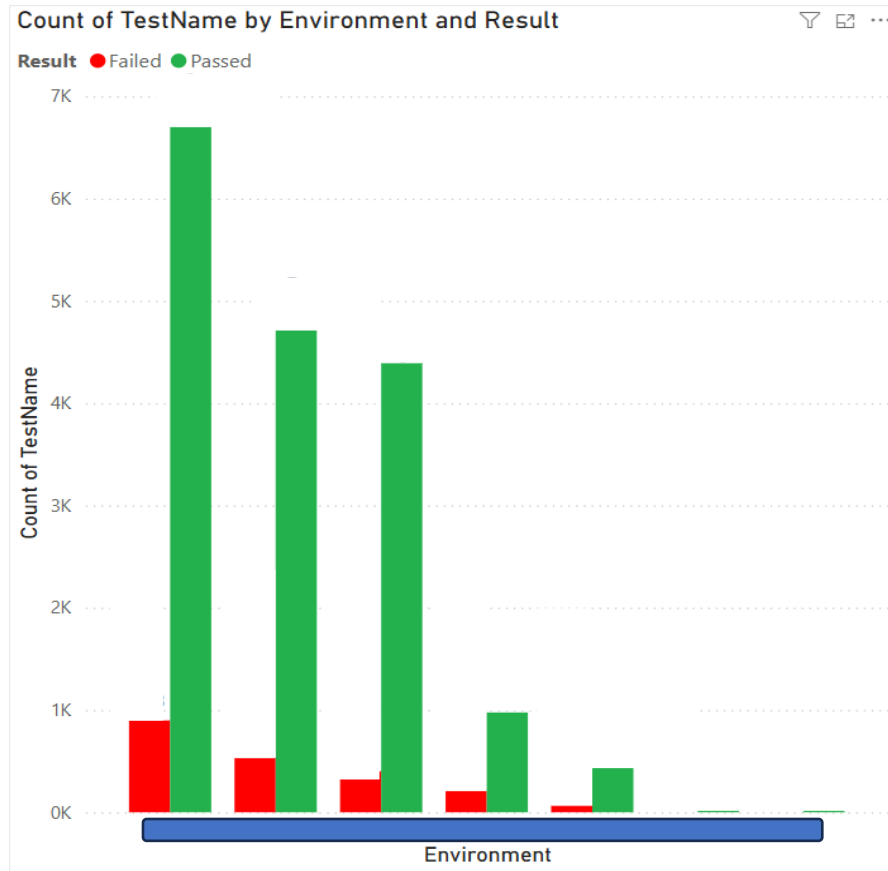

3 Reports:

- Test Automation Success Rate – adhoc tests
- Test Automation Success Rate - Scheduled
- Test Automation artifacts

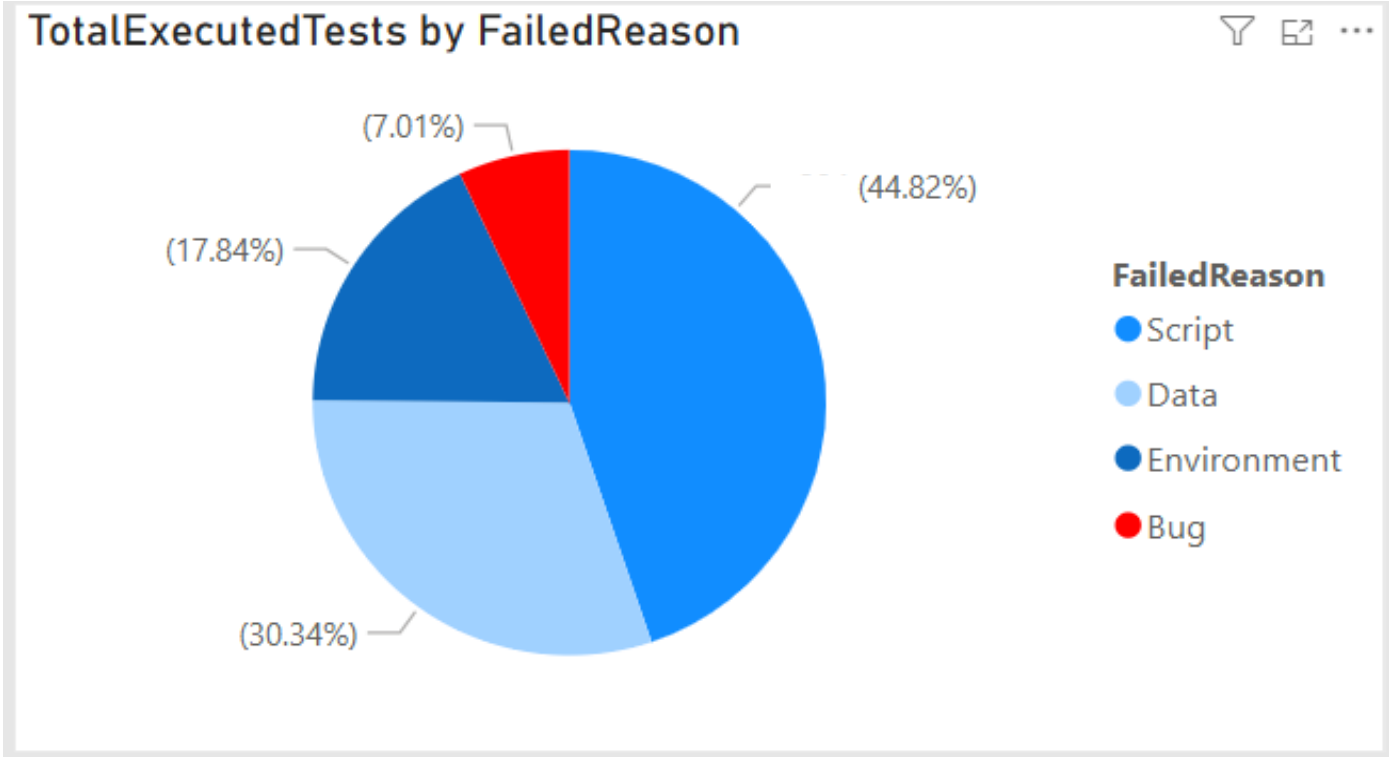

# Test Automation Success Rate

This count is a cumulative amount and will increase each time when a regression suite is executed

# Test Automation Success Rate

This shows the reasons why the tests failed. These are analysed manually and then categorised.

# Schedule Test Results

This will show a summary of the scheduled tests that were executed and what the result was.

## Scheduled Executed Tests

REST/JSON

Data as at:  
Tuesday, 11 February 2025

---

### Total Test Executed by API Service

12	3	4	2	9	19
----	---	---	---	---	----

---

### Total Test Executed by Resource

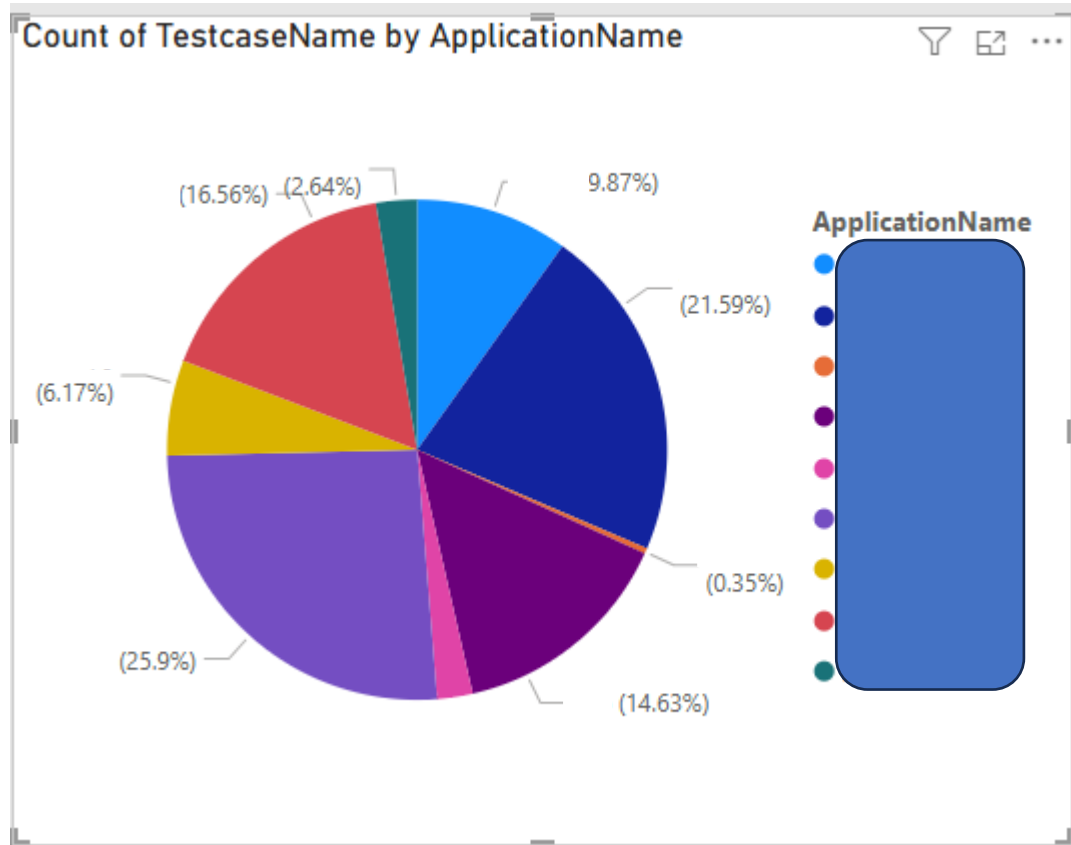

2	2	1	2	8	3	2	3	3	2	3	2	3	3	2	2	1	2	3
---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---	---
